I have a deep respect for the traditions and values of the Lodi community and wish to serve the citizens, preserving Lodi's small-town character and quality of life for future generations. The best things have happened in Lodi when we have had broad citizen participation. City goals should be established based on balanced community input so that everyone wins. We cannot get caught up with short-term issues or collapse all long-term discussions and human interaction into economics. If so, future generations will be raised without a commitment to the real values of the community. Let's work together for a Lodi for kids.

It would be an honor to represent you as a City of Lodi Councilmember.
